

**TOP 150 OVERALL LOAN PRODUCERS  
COMMUNITY BANKS in the U.S. WITH LESS THAN \$500 MILLION IN ASSETS**

**#36 >> Tri Valley Bank in  
Talmage, Nebr.**

Today's community banks on Main Street certainly provide an increasingly diverse range of financial products & services. However, no community bank can be successful-for its customers, communities and shareholders-without safely turning people's deposits into productive credit for others.

Invariably, the most successful community banks are those that consistently book the most solid loans. It's what community banks do better and more reliably than any financial service provider.

For these reasons, Independent Banker, for the past several years, has identified and highlighted community banks that have had the most recent success at generating the most solid loans. This year, **Tri Valley Bank** is recognized among those institutions across the country, that have demonstrated an ability to consistently win lending business in marketplaces rife with competitors.

Nothing is more fundamental to a community bank's success than successful lending.

ICBA congratulates these member institutions for succeeding in the most fundamental performance, of all-safely providing valuable credit to their customers and communities.
